# ABOUT US

POWERALL is the award winning, #1 best-selling lithium battery jump starter in the world. Currently sold in over 20 countries including the United States, Canada, Latin America, United Kingdom, France, Germany, China, Philippines, U.A.E., New Zealand, Australia and South Africa. Our corporate headquarters is based in Brea, CA - an ISO 9001 and ISO/TS 16949 certified manufacturer of automotive and lithium battery products, along with strategic operations in Canada, China, New Zealand, Australia, United Kingdom, and France.

We are the original inventor of the portable lithium jump starter product category. We are the first company to ever file utility and design patents in the world. It is the most trusted brand, carried by the top professional tool suppliers, automotive dealers, battery specialists, and leading retailers from different market industries -automotive, hardware, marine, outdoor sporting equipment , consumer electronics and wireless mobile. Our number one focus is in the safety of our products. We use the highest quality components to ensure that each and every user is 100% protected when using our jump starters.

The POWERALL function and design is patented in the U.S. and around the world. Each and every one of our jump starters are designed with the ideal to empower the individual. Our products are recognized for their easy to use, long lasting reliability, and extreme performance. Every aspect of our jump starters are carefully constructed with commercial grade materials including Grade-A lithium batteries that are stringently tested to meet the high expectations of our customers worldwide. Our jump starters are UL, FCC, CE, and RoHS certified to ensure safety and reliability.

We are confident that our lithium jump starters are the best and safest in the world. To prove that we stand behind our products 100%, our jump starters are backed by an industry leading one year exchange warranty. That means that if anything were to go wrong with your POWERALL jump starter within 12 months of your original purchase date, you simply ship it back to us and we will exchange it for you with a brand new working POWERALL jump starter. This is to ensure that our customers are always prepared with an optimal performing POWERALL jump starter for any emergency.

## JUMP STARTER

## Professional Safety and Quality

The Professional Series is the world's safest and best selling jump starters. The Deluxe 400A is the very first portable lithium jump starter that pioneered and revolutionized this entire category. There are two 12V models, the Deluxe and the Supreme, that are capable of jump starting a wide range of vehicles from small compacts to large 8.0L V10 motors. Then there's the 24V Goliath that is capable of jump starting transit buses, construction trucks, big rigs, and military vehicles. This is our flagship series that we built our name and reputation on, it's tested and approved by working professionals in many different fields for safety, quality, and reliability.

## Emergency Battery Jump Starter

Powerful enough to jump start most gas engine up to 7.0L, and most diesel engines up to 4.2L in a matter of seconds. On a full charge it can easily jump start vehicles over 20 times. You can store it in your glove compartment or trunk of your vehicle for up to 6 months and still have power to jump start a car. Our lithium jump starters are the only ones on the market that have true voltage feed-back protection in case you forget to disconnect the jumper cables from the battery!

## High Capacity USB Power Bank

High capacity multi-cell lithium batteries for your smartphones and tablets. Equipped with dual 5V/2.1A High Speed USB ports that can keep your electronic device charged. Both ports will support charging of smartphone and tablets along with any other USB powered electronic devices that meet the specs. Providing you with the power you need on the go!

## Ultra-Bright LED Flashlight

Equipped with an ultra-bright LED flashlight that outputs 86 lumens projecting up to 300 feet of light. It has three illumination modes for different use: Standard flashlight mode can be used in a power outage or when working on a vehicle, Strobe light mode can be used when changing a tire on the side of the road at night to alert oncoming traffic, and SOS flashing mode for outdoor emergency assistance, it can last up to 120 hours on a single full charge!

### Deluxe Specifications

PBJS12000RD

Battery Type: Lithium  
Battery Capacity: 12,000mAh  
Watt Hours: 44.4Wh  
Peak Amps: 400A  
Vehicles: 12 Volt

Boosting Gas Engine: up to 6.4L

Boosting Diesel Engine: up to 3.0L

Boosting on Full Charge: over 20 times

Lifespan: 1,000 Life Cycles

Standby: 6-12 Months

USB Outputs: 2x 5V/2.1A

LED Flashlight: 86 Lumens

300 Ft. Light Distance

Illumination Modes: Flashlight, Strobe Light

SOS Emergency Flash up to 120 Hours

Voltage Feedback Protection w/MOSFETs

Reverse Polarity and Spark Proof Protection

Dimensions: 6.5"x2.9"x1.2"

Weight: 12 oz.

U.S. Patented Product

**SUPREME**  
★★★★★

### Supreme Specifications

PBJS16000RS

Battery Type: Lithium  
Battery Capacity: 16,000mAh  
Watt Hours: 59.2Wh  
Peak Amps: 600A  
Vehicles: 12 Volt

Boosting Gas Engine: up to 7.0L

Boosting Diesel Engine: up to 4.2L

Boosting on Full Charge: over 20 times

Lifespan: 1,000 Life Cycles

Standby: 6-12 Months

USB Outputs: 2x 5V/2.1A

LED Flashlight: 86 Lumens

300 Ft. Light Distance

Illumination Modes: Flashlight, Strobe Light

SOS Emergency Flash up to 120 Hours

Voltage Feedback Protection w/MOSFETs

Reverse Polarity and Spark Proof Protection

Dimensions: 6.7"x3.1"x1.25"

Weight: 14 oz.

U.S. Patented Product

**GOLIATH**

### Goliath Specifications

PBJS32000RG

Battery Type: Lithium  
Battery Capacity: 32,000mAh  
Watt Hours: 118.4Wh  
Peak Amps: 800A  
Vehicles: 24 Volt Vehicle Systems Only

Lifespan: 1,000 Life Cycles

Standby: 6-12 Months

USB Outputs: 2x 5V/2.1A

LED Flashlight: 86 Lumens

300 Ft. Light Distance

Illumination Modes: Flashlight, Strobe Light

SOS Emergency Flash up to 120 Hours

Voltage Feedback Protection w/MOSFETs

Reverse Polarity and Spark Proof Protection

Dimensions: 8.0"x3.75"x1.5"

Weight: 28.8 oz.

U.S. Patented Product

## Included Accessories
